# The Future of 24-hour Ambulatory Blood Pressure Monitoring (ABPM) is Here

## Clinical Validation

**21**

Clinical Trials

**70+**

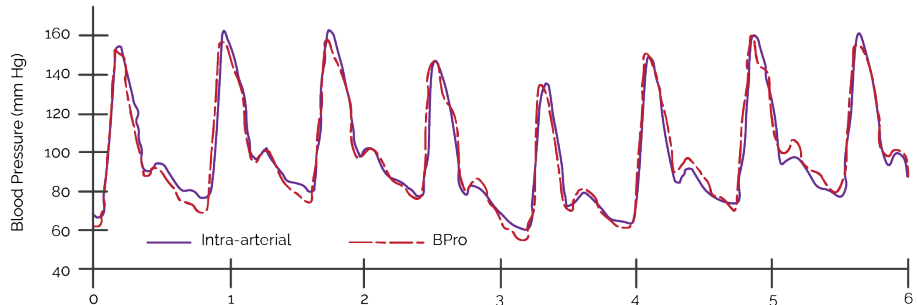

Peer Reviewed  
Studies

**99.17%**

As Precise As  
An Arterial Line

Central Aortic Systolic Pressure (CASP)

## Non-Invasive Central BP Measurement

Intra-arterial and BPro waveforms for one patient.

**Waveforms | National University Hospital, Singapore Oct. 2001**

Source: Ng, Kim-Gau et al. Progress on the development of the BPro ambulatory blood pressure monitor and related devices. Blood Pressure Monitoring 2004, 9: 149-165.  
AAMI/ESH/BISH Certified

# BPro<sup>®</sup> Today's Solution to ABPM & CASP

-  24-Hr ABPM/Up to 96 Readings
-  Central Aorta Systolic BP
-  Arterial Stiffness
-  Ambulatory BP
-  BP Dipping Status
-  BP Patterns
-  Cardiac Efficiency
-  Cardiac Perfusion Pressure
-  Central Pulse Pressure & Rate

*“There is no wearable in the world like BPro and its measurement of 24-hour blood pressure”*

-Dr. Suzanne Oparil, Director  
Vascular Biology & Hypertension Programs, UAB

Measurement Technique & Technology      Disruption, Pain & Discomfort      Number of Readings & Measurements

 <p><b>BPro ABPM</b></p>	<p>Cuffless Wrist Modified Applanation Tonometry</p>	<p>Minimal</p>	<p>Up to 96x / 24 hours (Automated)  Up to 32x night readings</p>
 <p><b>HBPM</b></p>	<p>Upper-arm Cuff Oscillometric</p>	<p>Moderate</p>	<p>1X measurement daily over 14 days (Manual)</p>
 <p><b>OBPM</b></p>	<p>Upper-arm Cuff Oscillometric</p>	<p>Moderate</p>	<p>1X measurement (Manual)</p>
 <p><b>Cuff ABPM</b></p>	<p>Upper-arm Cuff Oscillometric</p>	<p>Severe</p>	<p>Up to 48x / 24 hours (Automated)  Limited Night</p>
